Storage

- Avoid storage in places with high humidity and high temperature, and low temperature. (Ideally store Temperature: 10°C~30°C, Humidity: less than 70%RH)
- At extreme condition, the adhesion and/or holding strength may deteriorate and become easier to peel off.
- Contact with water or chemical must be avoided, so polyethylene film packaging is recommended.
- Direct exposure to the sunlight must be avoided and a distance must be kept from the light source.
- To ensure a longer shelf life, store the rolls in a standing position and sheets in laying position and avoid causing any form of impact on the material.

Application / Features

- Reapplicable type adhesive
- Ability to attach and remove repeatedly
- Able to remove without damaging the applied surface
- Convenient for corrective label with writable surface
